

*Want to do cryptographic implementation research in **Paris**?*

Plan A: Come and work in Paris

<https://www.iacr.org/jobs/item/2218>

- **Postdoc** with Inria's **GRACE** and **PROSECCO** teams
- Verified, high-assurance implementations
- Targeting **RIOT OS**: <https://riot-os.org>
A free, open-source OS for low-end IoT devices

Questions? contact Benjamin Smith at Inria

Plan B: **Set your Zoom background to this:**

*Bonus: when we get locked down again,
you get to do Plan A **and** Plan B simultaneously*
