

So you want to work in **Paris** on high-assurance **cryptographic implementations** for real-world **IoT applications**?

Plan A: set your Zoom background to this:

Plan B: Come to Paris

- **Postdoc** with Inria's **GRACE** and **PROSECCO** teams
- Proven implementations of pre- and post-quantum crypto targeting **RIOT OS**: <https://riot-os.org>
- Details: <https://www.iacr.org/jobs/item/2218>
- Questions: contact Benjamin Smith at Inria

*Disclaimer: when we get locked down again,
you might still need that Eiffel Tower background*
